SUMMARY

Seeking a position that supports steady growth for myself and the people I work with. I aim to strengthen my leadership, teamwork, and problem-solving skills while contributing to a productive environment. I bring a solid foundation in computer hardware, software, Cisco networking, and quality assurance tester. I stay organized, communicate clearly, and adapt fast to new responsibilities. I want to use my technical and management abilities to help the team meet goals, improve operations, and deliver meaningful results. I am eager to learn from mentors, support ongoing projects, and continue developing my technical and professional skills.
